Practical Strategies, Effective Teaching and Encouraging Self-Esteem (and Learning) in

Children and Adolescents: Advances in Elementary Education. N · W · R · : Wiley. Skillstreaming, Practice Labs, and Social Skills Instruction. by Ellen McGinnis. This article reports on an experiment comparing three skillstreaming techniques to traditional classroom instruction. The skillstreaming used materials in the recommended format to teach social skills, including social knowledge, social skills, and behavioral control. Skillstreaming was significantly more effective than traditional instruction in all areas, and was more appropriate for this age group than traditional instruction. A similar experiment using a different group of materials led to similar results. Although additional research is needed, skillstreaming could be particularly helpful for teaching social skills.
