XFlip Enterprise With Keygen

Generates... 2. Imagelite Data-Base - Multimedia & Design/Other Related Tools... Imagelite Data-Base is a Java based database that stores image files and data, and allows you to browse those images and data via a user friendly graphical interface. Add groups, photos and tags to organize the data and make it accessible using the search function. Images can be added to database directly from a local folder or through file transfer. Imagelite data-base can also be used to create virtual data storage by adding any size, type of file to the... 3. Piano Tones - Multimedia & Design/Music Composers... This application is designed as an all-in-one MIDI sound library for pianists. You can organize, manage, display and play all your tracks with ease. The piano loops are recorded in your default soundcard audio hardware and should work with all MIDI pianos. Synthesizers can be easily integrated. MIDI is supported in a dual way. The piano sound instrument can either be connected to a MIDI interface or can be designed as a standalone

instrument.... 4. Maverick - Business & Productivity Tools/Databases... Maverick is a lightweight, easy-to-use and intuitive database tool. Features include: Import / Export, Document, Metadata, Quick Search, List View, Record View, Query Editor, Sort By, Restore, Repair, Open and Save. Maverick can be used to create simple and complex databases or any other file format. With the ability to import / export as well as import / export multiple formats, you can use Maverick to quickly import databases from other programs or convert... 5. Matica - Business & Productivity Tools/Databases... Matica is a comprehensive and easy to use database application for managing text, data, table and field. It lets users save and retrieve data and freely perform any kind of operations. The software provides powerful tools for data import / export and can be easily converted into a wide range of other file formats. Matica features a wide variety of query and formative tools to aid users in managing data in any way they desire. It is one of the best... 6. MacD GroupWare for Mac OS X - Communications/E-Mail Clients... MacD GroupWare for Mac OS X is an all-in-one communication tool for managing contacts and group memberships

XFlip Enterprise
